

Microsoft Global Awards

Celebrating recognition for outstanding client service

For many organisations, winning an industry award is the ultimate recognition for a job well done. But for Dimension Data, there's another factor that adds to our pride: the satisfaction of knowing that our clients are the ultimate winners.

Microsoft has consistently recognised Dimension Data's capabilities in helping clients to plan, deploy and manage secure, optimised Microsoft technology solutions. Helping clients from around the world accelerate their business ambitions.

With these and other industry accolades to our name, combined with our close partnership with Microsoft, our clients can have confidence in our Microsoft competencies. From the basic building blocks of a Windows operating system, to the design of high-end management solutions, tools and services, Dimension Data is not only the partner of choice for all your Microsoft needs, but also an advisor on your journey in building an IT infrastructure designed to support your business aspirations.

Dimension Data is the only Microsoft partner in the world to have won 12 global awards in the past six years
