

Accelerate digital transformation with a now-to-future IT operations strategy

Accelerate digital transformation with a now-to-future IT operations strategy

We call this a now-to-future IT operations strategy

The capabilities essential for a successful now-to-future IT operations strategy

When choosing a service partner for the future look for one who...

 <p>Is investing in next-generation capabilities</p>	 <p>Has a strong ecosystem of partners</p>	
 <p>Owns their own low-cost cloud platform</p>	 <p>Has built a service aggregation platform</p>	 <p>Has an API-based service integration capability</p>
 <p>Is committed to being a leader in IT operations</p>	 <p>Has financial strength and stability</p>	
 <p>Is good at managing skills and talent</p>	 <p>Offers global presence and consistency</p>	 <p>Automates extensively, but with a human touch</p>

The logical next step

Learn how to evolve your IT operations strategy
