**DIMENSION DATA RECOGNISED WITH FOUR 2015 EMC AWARDS
INCLUDING GLOBAL ALLIANCES PARTNER OF THE YEAR**

*Investments in cloud and next-generation data centre positions Dimension Data at the forefront
of hybrid IT with EMC*

Santa Clara, California - 13 May 2016 - [Dimension Data](#), the USD 7.5 billion global ICT solutions and services provider, today announced it has received the 2015 EMC Global Alliances Partner of the Year award from [EMC Corporation](#). In addition, the company's APJ region was awarded EMC'S VNX Partner of the Year, and Cloud Services Growth Partner of the Year, while Dimension Data Australia scooped the Converged Infrastructure Partner of the Year award. The awards were presented to Dimension Data last week at the 2016 EMC® World Global Partner Summit.

Steve Joubert, Dimension Data's Group Executive, Data Centre Business Unit said, "Winning four EMC awards including Global Alliances Partner of the Year is a great endorsement for Dimension Data, and demonstrates the ongoing, consistent synergies between our two organisations during the past eight years."

"The numbers speak for themselves about Dimension Data's contribution. Dimension Data has consistently proven to be an outstanding partner to EMC, and has truly earned these four awards," said Jay Snyder, Senior Vice President, Global Alliances for EMC Corporation. Dimension Data consistently delivers the powerful results we look for in our partners.

In September last year, Dimension Data and EMC jointly announced the Catalyst Alliance, a strategic market development initiative designed to speed the adoption of hybrid cloud as a platform for transformation for the mid-size enterprise. Through the Catalyst Alliance both organisations have made investments to develop and jointly market and sell solutions that allow clients to realise value from business strategies based on hybrid cloud and enable them to adopt new technology while managing risk. By combining EMC's technology leadership with Dimension Data's extensive services portfolio and global reach, clients are able to accelerate their growth, creating value for their customers and financial returns for their shareholders.
