

The ROI of Cloud Voice

Improving communication and collaboration with customers and partners is a top priority to compete and win in a digital economy. New business models mean that everyone needs to maximize productivity for a business to achieve its goals. Telephony has always been separated from most collaboration solutions, resulting in challenges when trying to **adapt to ever evolving business needs**.

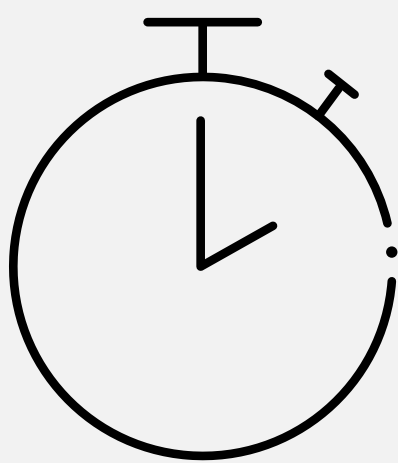

Microsoft Teams with Cloud Voice gives businesses the agility to grow and adapt to change cost-effectively.

Microsoft Teams Cloud Voice saves employees time

90
minutes

The amount of time **mobile workers can save with voice calling integrated into Microsoft Teams**.

30
minutes

The amount of time **information workers can save daily** because of **improved call quality and more reliable system performance**.

Voice integration improves top line outcomes

Microsoft Teams Cloud Voice connects your internal employees better with external customers and partners, which helps increase sales, reduce time-to-market and improve decision making.

Companies which integrated Cloud Voice into Microsoft Teams **increased top line revenue by 5% on average**.
