DIMENSION DATA RECOGNIZED AS ONE OF THE ACHIEVERS 50 MOST ENGAGED WORKPLACES IN THE UNITED STATES

NEW YORK – January 14, 2014 – Dimension Data, [the \\$5.8 billion global ICT solutions and services provider](#), today announced that it has been named to the Achievers 50 Most Engaged Workplaces™ in the U.S. This annual award honors top employers that display leadership and innovation in employee engagement.

“The companies named in the Achievers 50 Most Engaged Workplaces understand that employee engagement is not just a buzzword, but it provides a unique competitive advantage. Companies that focus on employee success see better alignment with business objectives and company values,” said Achievers CEO Patrick D. Quirk. “These companies serve as role models for other businesses to engage their own employees and build success.”

The Achievers 50 Most Engaged Workplaces Award winners were determined by a panel of judges who evaluated each applicant based on the Eight Elements of Employee Engagement™: Communication, Leadership, Culture, Rewards & Recognition, Professional & Personal Growth, Accountability & Performance, Vision & Values and Corporate Social Responsibility. The panel of 14 judges included various academics and thought leaders on employee engagement, and included representation from organizations such as the Society for Human Resource Management (SHRM), Human Resources Professionals Association (HRPA), Human Capital Institute (HCI) and Northern California HR Association.

“Dimension Data is committed to helping our employees feel like they are integral to our business success through numerous engagement programs, including recognition, merit-based compensation, coaching and mentoring, and a strong culture that builds team spirit while giving back to the local community,” said Mark Slaga, CEO of Dimension Data Americas. “Our focus on creating a positive, meaningful work experience is why Dimension Data consistently receives top employee engagement scores. We’re proud of our team and will continue to implement programs that inspire, motivate and build results-oriented engagement.”

“Across the company, Dimension Data has worked diligently to ensure that our culture is inviting to all employees,” said Dimension Data Senior Vice President of Human Resources Denise Messineo, SPHR. “Our goal is to create an environment where people feel they contribute and are heard by management. We have built a listening culture in which the feedback has been astounding.”

Dimension Data will be honored alongside other recipients of the Achievers 50 Most Engaged Workplaces Award at an awards gala on April 2, 2014 in San Francisco, Calif.
